CitySense Lite

CitySense Lite is an innovative smart city street lighting solution, which comprises of D4i-based street light motion sensors and intelligent street light controllers.

Ensuring that luminaires are future-proof and ready to host diverse smart city and IoT applications, the CitySense Lite solution complies with the standardized Zhaga Book 18 smart interface.

The connected street light system CitySense Lite carries all the benefits of our SkyLite Prime street lighting controller as well as the native features the third-party Zhaga street light sensor has to offer. Additionally, the system also brings the light-on-demand and neighbor triggering functionality, which offers illumination only during the human presence and creates a safe circle of light around an occupant.

Features

Zhaga compatible

Advance luminaire health information and monitoring

Patented real-time neighbour trigger functionality

Integrated ambient light sensor

Heatmaps to track occupancy and traffic intensity in the area

O

Neighbour light triggering

Accurate power metering

Energy Monitoring

Open API for 3rd party software compatibility

Mili

Full remote management

Benefits

Up to 80% energy savings

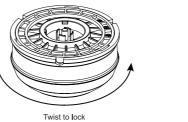

Up to 50% maintenance cost reduction

Lower CO₂ emissions & light pollution
